KICK IT California

COUNTY CESSATION LISTINGS - ENVIRONMENTAL SCAN & POSTING ONLINE

1. **Environmental Scan: Gather a list of tobacco cessation resources/services within your county/jurisdiction.**

   - There is no official instrument for this process. CTCP suggests checking with coalition partners and reviewing websites to determine what is available in your county/jurisdiction.

   - As you are gathering the list, get permission from organizations to post their information on your county's website.

2. **County Posting: Create or update your county's cessation webpage with the listings you gathered.**

   There is no official format for listings. We suggest including the following:

   - cessation organization name

   - one sentence description of the organization's services

   - organization website

   - organization phone number, if applicable

3. **Kick It California (KIC) Notification: Once the list is posted on your county's website, email the website URL to cshoutreach@ucsd.edu.**

   - KIC will use the URL you provide to update the county dropdown on the KIC website: **https://kickitca.org/county-listing**.

   - You will receive a confirmation email when the KIC website has been updated. Please allow 3 business days.
